GRADUATE SCHOOL ★ USDA

August 28, 1959

To the Faculty, Committee Members and
others associated with the Graduate School:

September calendar of events

10	Faculty Dinner	6:30 p.m.	National Press Club
12-19	Fall Registration		Patio, Administration Building
21-25	Classes begin		

CHAUNCEY D. LEAKE, our speaker at the annual faculty dinner, is a distinguished scientist, teacher, and writer. He is president-elect of the American Association for the Advancement of Science.

We can credit our good fortune in getting him to the strong bond between an able teacher and a good student. Henry Stevens, Chairman of our Department of Physical Sciences, studied human physiology under Dr. Leake at the University of Wisconsin, shortly after the first world war. Not long out of Princeton, the young teacher was known as "Sarge," a nickname acquired in the Chemical Warfare Service.

Dr. Stevens recalls the teacher's imaginative and stimulating qualities and particularly his idea that classes be divided into teams of instruction under a tutorial system. The idea proved too costly for use at Wisconsin, but was later adopted by the Western Reserve Medical School.

After obtaining a doctorate at Wisconsin and rising to a full professor, Dr. Leake moved to the University of California where he organized the Department of Pharmacology and was lecturer in medical history and librarian of the Medical School. Later he served as Executive Vice-President in charge of the medical branch of the University of Texas at Galveston. He is now Assistant Dean and Professor of Pharmacology in the School of Medicine, Ohio State University.

Dr. Leake's research on the effect of pharmacology and anesthetic agents on the brain has led to valuable scientific findings. In addition he has written on the history of medicine and the philosophy of science. His "Lethion" in blank verse tells of anesthesia from earliest times.

Dr. Leake prepared the annotated edition of Percival's "Medical Ethics" on the hundredth anniversary of its publication in England. He is co-author with Patrick Romanell of "Can We Agree," essays on the approaches of science and philosophy to the solution of ethical problems.

R. E. McArdle will preside at the dinner. Honor guests will be faculty members who have been associated with the School for 20 years and students who this past year have completed requirements for certificates.

We are looking forward to seeing you.

IT IS OUR PLEASURE TO SAY WELCOME to more than 50 new associates on the faculty and committees. Because our list is long we are limiting introductions to the name, highest degree, university, and Government department or private industry where employed. Listed by Graduate School departments, our new teachers and committee members are:

Biological Sciences: Lowell E. Allison, Ph.D., Illinois, Agriculture; Dorland J. Davis, Jr., Ph.D. and M.D., Johns Hopkins, Health, Education and Welfare; Edwin R. Goode, Jr., D.V.M., Alabama Polytechnic Institute, Agriculture; Berton F. Hill, B.A., Brown, National Research Council; Arthur M. Silverstein, Ph.D., Rensselaer, Defense.

Languages and Literature: Philip Eisenberg, M.A., Columbia, Library of Congress; Jane M. Fulcher, M.S. in L.S., Catholic, District of Columbia; Donald W. Griffin, M.S., Illinois State Normal, Commerce; Joy I. Kovar, B.A., Arizona State, Graduate School; Jose Otero, Madrid, World Health Organization; John Wahlgren, M.A., California, Defense; George R. J. Weigand, Ph.D., Maryland, University of Maryland.

Mathematics and Statistics: W. Duane Evans, B.S., Clarkson, College of Technology, Labor; William T. Jobanek, M.B.A., George Washington, Defense; Eugene B. Mitchell, M.S., Massachusetts Institute of Technology, Defense; George Neu, B.A., Houghton, International Business Machines; Anthony S. Rojko, M.S., Connecticut, Agriculture.

Office Techniques: Shirley Barlow, Agriculture; Emmett R. DeMoss, B.A., Duke, Agriculture; Helen Dressel, Defense; Douglas A. Griffiths, Agriculture.

Physical Sciences: Bowen C. Dees, Ph.D., New York, National Science Foundation; Paul McDaniel, Ph.D., Indiana, Atomic Energy Commission; Adrian F. Richards, Ph.D., California, Navy; John R. Smithson, Ph.D., Catholic, U. S. Naval Academy; Herbert S. C. Thom, M.S., George Washington, Commerce.

Public Administration: George D. Ferrare, B.S., Michigan State, Agriculture; John H. Finlator, B.A., North Carolina State, General Services Administration; Gustav C. Hertz, B.S., American, International Cooperation Administration; J. Kenneth Mulligan, M.A., Chicago, Civil Service Commission; Paul H. Riley, B.S., Indiana, Defense; N. O. Wood, Jr., Interior.

Social Sciences: Frank R. Eldridge; John O. Gerald, B.S., Clemson, Agriculture; Samuel Jacobs, M.A., Wayne, United Auto Workers; Verma Ruth Langley, M.A., American, U. S. Information Agency; and Newell B. Terry, M.A., Kansas, Interior.

Technology: D. A. Bucci, B.S.E., George Washington, Defense; John J. Cullinane, B.E.E., Catholic, Diamond Ordnance Fuze Laboratories; William H. Cullin, M.S., Massachusetts Institute of Technology, Navy; Forrest H. Green, M.S.C.E., Purdue, Commerce; and William J. Rankin, Agriculture.

NIH Center: Joseph E. Hoffman, Ph.D., Princeton, Health, Education and Welfare; Koloman Laki, Ph.D., Hungary, Health, Education and Welfare; John T. Stephenson, M.D., Illinois, Health, Education and Welfare; and Robert E. Taylor, Ph.D., Rochester, Health, Education and Welfare.

Correspondence Courses: Lyman B. Crittenden, Ph.D., Purdue, Health, Education and Welfare; John F. Donoghue, LL.B., George Washington, Agriculture; and Irwin J. Kopin, M.D. C.M., McGill, Health, Education and Welfare.

INTERNATIONAL AGE IN AGRICULTURE 1959 is our next lecture series, scheduled to begin October 7. The five lectures will cover technical assistance programs of this country and other nations. Speakers will be Deputy Director-General Norman C. Wright, of the Food and Agriculture Organization, Thomas C. Mann, Assistant Secretary, Department of State, and Deputy Director D. A. FitzGerald of ICA. Administrator Max Myers of the Foreign Agriculture Service is slated to discuss the world agricultural market--its opportunities and limitation.

We are indebted to a committee headed by Assistant Secretary of Agriculture Clarence L. Miller for arranging the series.

* * *

NEW EQUIPMENT for the coming year includes chalkboards and a table model easel, and a cash register for the bookstore.

* * *

A quotation from our booklet, "How We Teach" in the OHIO ADULT OBSERVER has brought us several requests for copies.

NEW LOCATIONS on our campus--which stretches over much of metropolitan Washington and into Prince Georges and Montgomery County, Md.--are at Georgetown University where our class in Basic Principles of Laboratory Animal Care will meet, and at Gallaudet College, where we will offer two evening courses: Chemistry of Lithography and Workshop in Nature Study Techniques.

AMONG OURSELVES

Jerome H. Perlmutter and Catherine F. George received a superior service award from USDA in June for "exercising superior judgment in the policy review and clearance of an unusually large volume of Department publications made possible through proficient leadership and management policies." In July, Mr. Perlmutter was one of five young editors recognized by the American Association of Agricultural Editors for outstanding work during the past year. He was cited for "conspicuous contribution to high professional standards of communications on behalf of the land-grant college program."

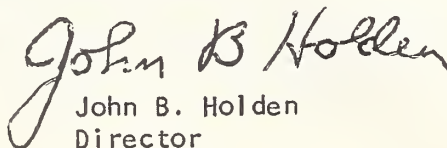

Carl Bauer will commute to Villanova, Pa., each Thursday afternoon during the fall semester to teach group dynamics in the Division of Nursing, Villanova University. Title of the course is the title of his forthcoming book, "The Person in Human Relations Training."

Laurence W. Acker is president and John C. Cooper is vice-president of the Federal Accountants Association.

Truman Benedict has an article, "The Career Cone: A Visual Planning Tool" in the April 1959 issue of PUBLIC PERSONNEL REVIEW.

Morris Leikind has been made executive secretary of the Neurology Post-Graduate Training Center, National Institute of Neurological Diseases and Blindness, NIH.

Sincerely,

John B. Holden
Director
